INTRODUCTION

GInI Certified Innovation Professional (CInP) ® is GInI's recognition of working professionals who have demonstrated an advanced understanding of key topics relating to business innovation and innovation management.

CInP certification affirms an individual's proficiency at key and foundational innovation methods and tools. This includes: research and insights mining, brainstorming and the GInI Breakthrough Innovation Method, Design Thinking, innovation project structuring, the GInI Innovation Management System, the different roles of the Innovation Manager, leading and building innovation teams, engagement & intrapreneuring, open innovation, innovation storytelling, and idea selection.

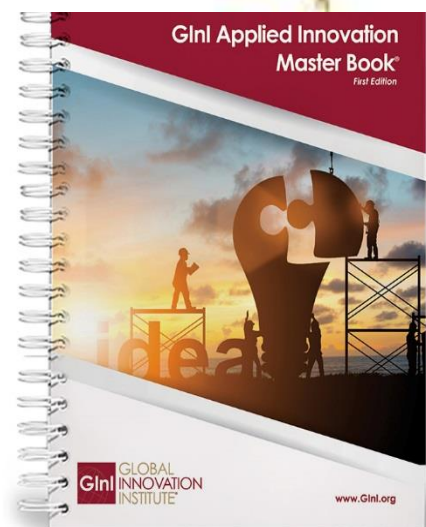

What Organizations Should Apply

CInP certification is for those with little or no experience working directly in innovation, but who wish to gain an understanding of Business Innovation and how to drive it inside enterprise.

CInP certification is intended for both front-line working professionals and mid-level managers, including those with those limited or no Innovation experience. If one has no direct experience working in Innovation, or less than 4 years' total professional experience, then they should first begin with CInP Certification.
