

WORKSHOP ON FIRE Risk Insurance

Course Introduction:

This program is design for five days to cover all relevant topics on fire risk insurance. Fire risk insurance is a form of property insurance which protects people from the costs incurred by fires. When a structure is covered by fire insurance, the insurance policy will pay out in the event that the structure is damaged or destroyed by fire. Some standard property insurance policies include fire insurance in their coverage, while in other cases; fire insurance may need to be purchased separately. Companies should check with their insurance companies if they are not sure whether or not fire insurance is part of their policies, and if fire insurance is not included, it should be purchased.

Course Objectives:

By the end of the program, participants will be able to:

- Know fire principles, managing it and what risk involved
